Possible Contributions

- (a) what are the interests in the ENV call
- (b) interests in the overall topic of VGI / COs
- (c) capabilities, expertise and special strengths

Interests in the ENV call

- Environmental issues in urban environments are large challenges in Poland
- Deployment of sensors ties into some existing research
- Good connections to industry

Interests in the overall topic of VGI / COs

- Not much experience/work
- Great interest in deployment
 - urban pollution
 - traffic
 - crowd control
 - flooding

Capabilities, expertise and special strengths

- SME connections
- Studies of citizen perceptions in Krakow area
- Environmental studies
- Regional development studies

Questions

- ENV call is very broad:
 - Should topics be broad or narrow: breadth or depth?
 - Should examples be focussed or narrow?
- How should education and outreach be handled?
